

DDR-586-62

27 September 1962

MEMORANDUM FOR: Assistant Director,
Office of Special Activities

SUBJECT: U-2 Electrical Power Supply

1. As you know, in the past we have had Elint collection troubles caused, to some extent, by noise in the generator system of the U-2 aircraft. We have also been reminded that there is a limited amount of power available for operation of our various electronic defensive gear.

2. It would seem advisable to have a study made of the feasibility and cost of installing additional power in this aircraft, either from a new generator design or any other additional source.

3. It is requested that OSA look into this matter.

SIGNED

EDWARD B. GILLER
Assistant Deputy Director
